

The Social Work Program has not been accredited by the Council for Social Work Education (CSWE). The department has submitted the fee and application for Accreditation Candidacy and CSWE has accepted the fee and application. Before acceptance into candidacy status, the social work program must submit additional documentation to CSWE for their approval. Once approved, we begin the three-year journey towards accreditation. We expect candidacy acceptance within the next few months. **Students cannot apply to take the BSW licensing exam or apply for advanced standing in any Master's program until the program has achieved full accreditation.**
